

# DO **MORE** WITH HOME AUTOMATION

THE **ONLY** TECHNOLOGY COMPANY  
**LEADING IN ALL THREE**  
WIRELESS TECHNOLOGIES

# THE **MOST COMPREHENSIVE** LINE OF LIGHTING CONTROLS ON THE MARKET

## INNOVATIVE UNDER CABINET FIXTURES

## **SIMPLE SET** TIMERS

Z-Wave offers a powerful and broadly deployed ecosystem for innovative control and monitoring applications. Z-Wave's light overhead in cost & power consumption make the technology practical for almost any sphere, and offers an environment where deployments can be easily extended or enhanced, with full confidence in the backward and forward compatibility with existing products and services.

Growing in functionality and applications, Bluetooth creates hub-less home-automation networks that can cover an entire building or home, creating automation options for both home and industrial applications.

ZigBee Smart Energy is a leading standard for interoperable products that monitor, control, inform, and automate the delivery and use of energy and water. ZigBee devices help create greener homes by giving consumers the information & automation needed to easily reduce their consumption and save money. ZigBee Smart Devices can be controlled by smartphones, tablets, PCs & ZigBee remotes.

Jasco provides a comprehensive assortment of GE-branded lighting fixtures, with direct wire, linkable and plug-in options available in a variety of lengths, color temperatures, lumens and sources.

Our newest GE Enbrighten-branded LED fixtures are made from premium steel, provide even light distribution, natural true color, and feature a lifetime guarantee.

Emphasizing automation, security and convenience, Jasco provides a variety of heavy-duty, in-wall, plug-in and outdoor GE-branded timers.

The recently launched myTouch Smart timers are simple timers to set. They include 2 easily programmable my on/off buttons and 4 preset buttons — evening, morning, all night, and an adjustable countdown button from 1 minute to 24 hours.
